

Department of Commerce

Vision:

To develop complete growth of students and faculty members and to kindly enhance their advanced and essential skills and spirit in the fields of value based education, Community development with society orientation, placement to facilitate vertical mobility, identification of entrepreneurial trails and knowledge enhancement with a scientific temperament.

Mission:

- To create an ambience for conducive high quality, affordable, innovative, value based research oriented commerce education with experimental learning process for an Overall personality development and leadership qualities.
- To develop entrepreneurial ability in students.
- To develop human resource to act as think for the business sector.

Program objectives

- To cater to the manpower needs of companies in Accounting, Taxation, Auditing, Financial analysis and Management.
- To develop business analysts for companies, capital markets and commodity markets.
- To prepare students to take up higher education to become business scientists, researchers consultants and lecturers, with core competencies.
- To develop human resources to act as think tank for Business Development related issues.
- To develop entrepreneurs.
- To develop business philosophers with a focus on social responsibility and ecological sustainability.
- To develop IT enabled global middle level managers for solving real life business problems and addressing business development issues with a passion for quality competency and holistic approach.
- To develop ethical managers with interdisciplinary approach.
- To prepare students for professions in the field of Accountancy - Chartered Accountancy, Cost and Management Accountancy, Company Secretary, Professions in Capital and Commodity Markets, Professions in life and non life insurance and professions in Banks by passing the respective examinations of the respective professional bodies.
- Also to develop the students for competitive examinations of UPSC, KPSC, BSRB, Staff Selection Commission, etc.

MONETARY SYSTEM

TOTAL HRS-60
Sem-I

COURSE OBJECTIVE

The objective of this subject is to familiarize the students with regard to structure, organization and working of financial system in India.

- To make them understand the meaning ,types of classification and working pattern of MS.
- To introduce the various types of banking and non banking financial institutions.
- To make them aware of the role of commercial banks and reformative policies.
- To familiarize the different regulatory institutions concerned to stock and money market.
- To know about different financial services offered by financial institutions.

Course outcome

- They are able to understand and classify different types of money market.
- They know about different types of banking and non banking financial institutions.
- They know about importance of commercial banks and reformative policies.
- They are able to recognize the role and functions of RBI and SEBI as a regulatory institutions.
- Students know about the different types of financial services and if importance in economic development.

INTERNATIONAL BUSINESS

TOTAL HRS-60

Sem-I

COURSE OBJECTIVE

To familiarize the students with International Financial environment, instruments and institutions.

- ☐ To make students understand the fundamental terms and concepts and issues involved in international business.
- ☐ To provide students the information about the Forex markets and its intermediaries, components and methods of balance of payments.
- ☐ To create awareness about instruments in the international financial markets.
- ☐ To analyse foreign exchange risk and its efficiency.
- ☐ To provide knowledge about international financial institutions and liquidity.

Course outcomes:

- Students were able to secure better understanding about fundamental terms and concepts and issues involved in international business.
- Students have learned the working of Forex markets and its intermediaries, components and methods of balance of payments.

- Students are aware of the instruments in the international financial markets.
- Students are able to analyse foreign exchange risk and its efficiency.
- Students have got an idea about international financial institutions and liquidity along with portfolio management

MACRO ECONOMICS

TOTAL HRS-60

Sem-I

COURSE OBJECTIVE

- Students will be able to explain the concepts of opportunity cost, trade-offs, and the benefits of exchange.
- Students will be able to demonstrate knowledge of the laws of supply and demand and equilibrium; and apply the supply and demand model to analyse responses of markets to external events.
- Students will be able to explain the concepts of gross domestic product, inflation and unemployment, and how they are measured.
- Students will be able to explain the circular flow model and use the concepts of aggregate demand and aggregate supply to analyse the response of the economy to disturbances.
- Students will be able to describe the determinants of the demand for money, the supply of money and interest rates and the role of financial institutions in the economy.
- Students will be able to define fiscal and monetary policies and how these affect the economy
- Students will be able to identify the causes of prosperity, growth, and economic change over time and explain the mechanisms through which these causes operate in the economy.

COURSE OUTCOME.

- By the end of the course, students will be able to apply supply and demand analysis to examine the impact of government regulation.
- By the end of the course, students will be able to explain and calculate price elasticity of demand and other elasticities.
- By the end of the course, students will be able to demonstrate an understanding of producer choice, including cost and break-even analysis.
- By the end of the course, students will be able to compare and contrast common market structures, including perfect competition and monopoly.
- By the end of the course, students will be able to apply microeconomic principles and models to define and address market failures; and to describe issues such as wage inequality, environmental protection or other policy matters.

INFORMATION SYSTEM AND COMPUTERS

TOTAL HRS-60

Sem-I

COURSE OBJECTIVE

- ☐ To study the basic principles computer applications.
- ☐ To understand the fundamentals business application in computer.
- ☐ To understand the various application business.
- ☐ To understand Data Base Management System, Information System, Microsoft office and E-commerce.

Course outcomes:

At the end of this course, the students are able to:

- ☐ Conclude the practical and ideal characteristics of E- Business.
- ☐ Explain and design account package problems.
- ☐ Compare the business application into Computer.
- ☐ Explain the process of problem solving in computers.

ADVANCED FINANCIAL MANAGEMENT

Total no of hours-60

SEM- I

COURSE OBJECTIVE:

The objective of this subject is to acquaint students with the accounting concepts, tools and techniques influencing Business Organizations

Course Objectives:

- The objective of this subject is to make the students the understand accounting Concepts and techniques influencing business organisations.
- For making the students to learn and preparation of accounts in financial terms and aspects.
- To enable the students to learn converting single entry into double entry system of accounting, preparation of financial statements.
- To make in depth study on how Hire purchase system is used to acquire assets in business use.
- To know how the Royalty accounts are prepared and preparation of accounts.
- For enabling the students of converting partnership into Limited company.

Course Outcomes:

- Students to *make* capable in preparation of final accounts of a company.
- Able to solve the trial balance by preparation of final accounts of a company.
- Student are capable of preparing final accounts, hire purchase accounts, royalty accounts.
- To make them solve in conversion of accounts from single entry into double and partnership into limited company.
- Students have knowledge of converting partnership firm into limited company.

HUMAN RESOURCE MANAGEMENT

TOTAL- 60HRS

SEM-I

COURSE OBJECTIVE

The objective is to familiarize the students with concepts and principles of Human Resource Management.

- To understand the meaning and importance of HRM .
- To learn the process of HRM planning. in detail .
- To make them understand the selection and recruitment process.
- To teach about training methods, induction its benefits and objectives.
- To familiarize with different Methods of performance appraisal and its importance.
- To make them aware about promotions.
- To have knowledge on human resource development and knowledge management.

COURSE OUT COMES

- Students are able to answer about the concept of HRM .
- Students are able to analyse HR planning.
- They learn about different recruitment and selection process of HRM
- They learn about basis of promotions and transfers.
- Students are able to answer HRD , knowledge management.

COMMUNICATION SKILLS

Total hrs-60

SEM – I

Course OBJECTIVE

- ☐ To Study about attitude and emotional intelligence.
- ☐ To study about vision, goal and time management.
- ☐ To study about creativity and its importance.
- ☐ To learn about communication skills
- ☐ To familiarize the student about career planning and counselling

Course Outcome:

- ☐ Able to understand about the attitude and its importance
- ☐ Able to set goals and also learn how to achieve the goals
- ☐ Able to use the techniques of creativity.
- ☐ It helps the students to select the strategies and tools to build relationship in professional and career development.
- ☐ It helps to assess the selection and implication of current & emerging technologies on the quality in professional lifestyle.
- ☐ Helps the students to increase their communication skills.
- ☐ Students are aware of different careers and also able to choose a suitable career.

INDIAN BANKING

TOTAL HRS-60

SEM-II

OBJECTIVE

The objective is to familiarize the students to understand the law and practice of banking.

Course Objectives:

- ☐ To make the students understand the with real world banking.
- ☐ To make them Identify the relationship between Banker & customer
- ☐ To make student different types of bank accounts and procedures to open bank account
- ☐ Identify the Negotiable instruments used in banks .
- ☐ To familiarise the students to apply for different kinds of borrowing facilities granted by bank

Course outcome:

- ☐ Students understood the concept of banking system and functions in India
- ☐ . They gained the practical knowledge on opening of an Bank account by visiting banks
- ☐ They learned about how to use the Negotiable instruments.
- ☐ Students gained the knowledge and skills by undertaking assignment

RISK MANAGEMENT

TOTAL HRS-60

SEM-II

COURSE OBJECTIVE

- :• Conduct a comprehensive assessment of associated physical, reputation, emotional, financial, and facilities risks
- Provide a realistic assessment of those risks along the risk management matrix (probability and severity)
- Conduct a comprehensive exploration and examination of options for mitigating actions
- Select the most appropriate mitigating actions for each risk
- Develop contingency and crisis response plans
- Consult with “campus experts” in planning
- Communicate risk management plan to other constituents of event
- Implement event according to pre-established risk management plans
- Document and evaluate outcomes of risk management plans
- Internalize the value of risk management
- Articulate the value of risk management

COURSE OUTCOME

- To provide an understanding and an appreciation of the principles and practices of risk management in order to enable production of the optimum strategy for the handling of risk in an organisation. Learning Outcomes: At the end of the course, student should be able to Identify and categorise the various risks face by an organization
- Explain the various risk control measures available;
- Suggest ways to finance risk
- Design a risk management program for a business organization.
- . Apply the insurance mechanism in risk management. 6. Describe the management of international risk.

ADVANCED E-COMMERCE AND MOBILE COMMERCE

Total hour-60

SEM -II

COURSE OBJECTIVE:

The objective of the subject is to familiarize the students with E- Commerce models and Tally

- To enable students of E-commerce and E-Business Importance in Business.
- To make students understand the Modern Business by utilisation of Technology in Business.
- To Know different Models of E-Business and various Technology used in business which make business ease.
- To have a study over Hardware and Software components used in business and how its developed in business.
- To have detail study of Tally accounting software in business for students to make them understand The need of Tally in Business applications.
- To prepare the various reports in Tally by using accounting software in Business for students.
- To have a better understanding of Electronic business.

Course Outcomes:

- Students understand the Difference between Traditional and Modern commerce.
- Have a practical knowledge about the Impact of E-Commerce in Present Era.
- Students understand the software and Hardware tools of E-Business.
- To have the knowledge about the Tally Accounting Software which are used in the Business for maintaining the Accounts.
- Understand the students How the E-Commerce Revenues are Earned and different models.
- Students to have enough knowledge about the Electronic commerce by various aspects.

BUSINESS RESEARCH METHODS

Total hrs-60
SEM- II

OBJECTIVE

The objective is to create an awareness of the Process of Research, the tools and techniques of research and generation of reports

Course objective :

- ☐ To familiarise students in research and its types.
- ☐ To make them understand about primary data and secondary data.
- ☐ To familiarise the students with the techniques of hypothesis and tests like anova and chi square.
- ☐ To enable the students to gain practical knowledge of report writing
- ☐ Students will gain the practical knowledge about questionnaire by undergoing assignments.

Course outcome:

- ☐ Students are aware of the concept of research and types of research.
- ☐ Students understood how to develop a research design and method including ethical implication .
- ☐ Students have knowledge about literature review and research proposal.
- ☐ Students learned practical knowledge of hypothesis and tests by taking sample size of their own.
- ☐ They learn how to prepare reports in technical academic and bibliography .

OPERATIONS RESEARCH AND QUANTITATIVE TECHNIQUES

Total hrs-60

SEM- II

Course Objectives:

1. To design new simple models to improve decision making and develop critical thinking and optimization of linear programming problem.
2. The main objective of transportation problem solution methods is to minimize the cost or the time of transportation.
3. The assignment problem is a special type of transportation problem whose objective is to minimize the cost or time of completing a no of jobs by a no of passes.
4. Network analysis (CPM/PERT) to minimize the total project cost, idle resource, production delays, interruptions and conflicts, total project duration.
5. Game theory is an approach to understanding human behaviours that conceives of decision makers as player in games and. It teaches how to handle competitive situations.

Course Outcomes:

Student will be able to.

1. Tell the definition history, applications, limitations and characteristics of OR and modulate the linear programming problems and solve by Graphical method, simplex method and solve by artificial variable techniques.
2. Write mathematical formulation of T.P. and to find the initial basic feasible solutions by different methods and techniques.
3. Write mathematical formulation of assignment problems solving assignment problem by different method of different cases.
4. Construct network for large projects and solving problems by CPM & PERT.
5. Solve two person zero sum games and find saddle point & value of the game by maximum-minimum principle and solving the problem of mixed strategies & without saddle point. And solving games by dominance property.

BUSINESS MARKETING

Total hrs-56 HRS

Sem-I

COURSE OBJECTIVE:

The objective is to familiarize the students with the principles of marketing and focus them towards Marketing and Management of Services'

4. To familiarize the students with principles or marketing and focus towards marketing and management services.
5. To gain comprehensive awareness of behaviour of customers
6. The focus of course is to identify the recent developments in marketing strategies
7. To understand the basic concept and process of CRM, BPO, KPO
8. To able to analyse the digital, target, e-business, and various recent trends of marketing.

Course outcome

- ☐ Students can identified the producer /Distributors of the organization in which stage of the product life cycle and position.
- ☐ Students are able to know strategies for development of a product.
- ☐ Students are aware of consumer behaviour for the product of customers choice.
- ☐ Students able to gain basic knowledge of develop in advertisement copy for a product.

MICRO FINANCE

Total hrs-60 HRS

Sem-II

COURSE OBJECTIVE:

By the end of the program, students should:

- Understand the manner in which microfinance may be utilized to accelerate the expansion of local microbusinesses;
- Be familiar with the process of finding loan recipients and delivering a microfinance pitch;
- Be knowledgeable about the benefits and controversies of microfinance in modern economies;
- Have a general understanding of measuring the effects and value of individual microloans to businesses; and
- Be acquainted with the Kiva Zip microfinancing website that is used to fulfil the microloans and its corresponding application process, with emphasis in public profile creativity

Course outcome

By participating in this program, students have the opportunity to:

- Acquire communication and presentation skills to explain the project to local businesses and identify candidates
- Learn how to utilize economics, business and finance skills to promote small-business success
- Learn about effective teamwork
- Learn how to implement analytical problem-solving skills in complex environments

BUSINESS ETHICS AND CORPORATE GOVERNANCE

TOTAL HRS- 56
SEM-III

Course OBJECTIVE

The objective is to provide basic knowledge of business ethics and values and its relevance in modern context.

- To know the Basics of Ethical values in business To be followed.
- To make them understand the Corporate social Responsibility undertaken by the Business.
- To Study about personal ethics
To make the students understand ethics in management
- To Learn about Corporate Culture .
- To study about Corporate Governance and how it will help the business .

Course Outcome:

- Understanding the Moral values and ethical principles followed in the business.
 - Student have learnt the Corporate Social Responsibility.
 - Student have understood the difference between good and bad in business.
 - To be able to analyse the ethical and moral values in management
 - Understood the concept of Corporate culture.
 - Gain knowledge in corporate governance.
- .

CORPORATE FINANCIAL REPORTING

TOTAL HRS- 60
SEM-III

COURSE OBJECTIVE

- Recognize and understand ethical issues related to the accounting profession.
- Prepare financial statements in accordance with Generally Accepted Accounting Principles.
- Employ critical thinking skills to analyse financial data as well as the effects of differing financial accounting methods on the financial statements.
- Effectively define the needs of the various users of accounting data and demonstrate the ability to communicate such data effectively, as well as the ability to provide knowledgeable recommendations.
- Recognize circumstances providing for increased exposure to fraud and define preventative internal control measures.
- Demonstrate an understanding of current auditing standards and acceptable practices, as well as the impact of audit risk on the engagement.
- Understand the audit process from the engagement planning stage through completion of the audit, as well as the rendering of an audit opinion via the various report options.
- Apply cost accounting methods to evaluate and project business performance.
-

COURSE OUTCOME

- Demonstrate an understanding of the taxation of individual income.
- Apply appropriate judgment derived from knowledge of accounting theory, to financial analysis and decision making.
- The student will experience real-world learning and application of skills via their internship. Note: Specific outcomes will vary by assigned internship experience.
- Achieve all outcomes associated with the Adult Degree Completion program in Business Administration; and
- Recognize and understand ethical issues related to the accounting profession.
- Prepare financial statements in accordance with Generally Accepted Accounting Principles.
- Employ critical thinking skills to analyse financial data as well as the effects of differing financial accounting methods on the financial statements.
- Effectively define the needs of the various users of accounting data and demonstrate the ability to communicate such data effectively, as well as the ability to provide knowledgeable recommendations.

ACCOUNTING FOR MANAGERIAL DECISION

TOTAL HRS- 60
SEM-III

COURSE OBJECTIVE

- Acquire knowledge about general aspects of business operations.
- Describe the role of accounting information system and its limitations.
- Explain the concepts and procedures of financial reporting, including income statement, statement of retained earnings, balance sheet, and statement of cash flows.
- Identify the basic economic events most common in business operations and be able to report the events in a generally accepted manner, including the impacts of alternative accounting methods on financial statements.
- Tabulate the basic differences between the Generally Accepted Accounting Standards (GAAP) in the United States and the International Financial Reporting Standards (IFRS).
- Locate and analyse financial data from annual reports of corporations.
- Identify cost classifications based on how the cost will be used: whether for preparing external reports, predicting cost behaviour, assigning costs to cost objects, or decision making.

- Identify the costing method to use in custom situations and in mass-production situations and know how to apply those methods.
- Identify various cost classifications based on how costs respond to changes in production levels, and how those changes affect managements' decision to expand or reduce capacity levels.
- Explain the critical trade-offs existing between total cost and sales volume in determining desired profit goals.
- Prepare an income statement required for external reporting and a different one more useful to managers for managerial decision-making.
- Evaluate business segments and the managers responsible for those business segments.
- Prepare and evaluate operating as well as capital budgets.
- Identify costs which may be relevant or irrelevant to a given management decision at hand.
- Discuss the ethical constraints that guide a manager in pursuing his/her ultimate goal of maximizing the value of the firm.

STRATEGIC COST MANAGEMENT-I

TOTAL HRS-60
SEM-III

COURSE OBJECTIVE

- ☐ To enable the students to understand techniques used to control as well as reduce the cost.
- ☐ To understand the basic techniques of costs like absorption cost and marginal cost.
- ☐ To be able to analyse and evaluate variance analysis of cost ascertainment, Material Cost, Labour Cost and Overhead Cost.
- ☐ To make students aware about to illustrate make or buying decisions helps in decision making.
- ☐ To give knowledge about various accounting budgets related cash, fixed, flexible, purchase, production etc.,
- ☐ To enable the students to understand the steps in the implementation of Activity Based Costing.

Course Outcome:

- ☐ Students have understood various methods and techniques of costing
- ☐ Students are aware and able to solve accounting of marginal costing.
- ☐ Identify the specifics of different costing methods
- ☐ Students will be able to understand the various accounting budgets like cash budget, flexible budget etc.,
- ☐ Students are able to understand steps in the implementation of Activity Based Costing.
- ☐ Students are able to apply the various techniques to control the cost.

DIRECT TAX PLANNING

Total hrs-60

SEM-III

Course OBJECTIVE

The Objective of this subject is to expose the students to the various provisions of Income Tax Act 1961 relating to computation of Income of individuals.

- To create awareness about tax structure and tax system in India
- To make them understand brief history of income tax and Income tax authorities
- To teach them how to determine residential status and incidence of tax
- To create awareness about salary , allowances, perquisites and its taxability.
- To teach taxability of house property its basis of charge exempted incomes from house property and deduction
- To make the students to learn about income tax slab rate exempted incomes filing of income tax and self assessment
- To make them understand how to pay tax, mode of payment, refunds etc....

COURSE OUTCOME:

- Students learned about Indian tax structure, slab rate, calculation of tax liability, exemptions etc.....
- They are able to determine residential status and incidence of tax
- They learned about salary and its contents
- They are able to calculate taxable income from salary
- They understood the basis of charge of income from house property and they are able to calculate taxable income form house property

YOGA AND LIFE

Total hrs-60

SEM-III

Course OBJECTIVE

- Knowledge of classical and theoretical foundations of the field of Yoga Therapy
- Critical thinking skills and science-based literacy to advance the evolution of Yoga Therapy as an integrative health practice
- Knowledge of the teachings and philosophy of the yoga tradition, with diverse yogic perspectives on the structure, states, functions, and conditions of the body and the mind in balance (and out of balance), based on teachings of the Yoga Sutras, the Bhagavad Gita, and other relevant texts
- Knowledge of classical theories of health and disease relevant to the practice of Yoga Therapy
- Knowledge of human anatomy, and the interrelationships between systems of the body; knowledge of common pathologies and disorders of systems of the body, including familiarity with symptoms, condition management, illness trajectories, and related contraindications to yoga practices

COURSE OUTCOME

- Ability to communicate using common medical and psychological terminology, including the skill to discuss commonly used medications, supplements, and surgical procedures
- Knowledge of models of human development, with the influence of familial, social, religious and cultural conditioning on health and healing
- Knowledge of the interconnections between the body, the breath, the mind, and the emotions in the context of maintaining resilience and well-being
- Ability to communicate effectively, to establish healthy therapeutic and professional relationships, and to implement effective teaching methods by adapting to unique styles of learning, providing supportive and effective feedback while evaluating and acknowledging the progress of the client
- Skills to provide Yoga Therapy including: the skill to conduct an intake and assessment of the client and elicit the priorities and goals of the client; the skill to integrate information from the intake, evaluation, and observation to develop a working assessment of the client's condition, limitations, and possibilities; and the skill to determine which aspects of the client's conditions, goals, and aspirations might be addressed through Yoga Therapy

COMMODITY MARKET

Total hrs-60

SEM-IV

COURSE OBJECTIVE

The objective is to provide students with a conceptual framework of stock markets and Commodity Markets, functionaries in these markets and their mode of trading.

- ☐ To provide comprehensive Knowledge about working pattern of stock and commodity market,
- ☐ To impart knowledge on the major regulatory authorized stock exchange centres of India.
- ☐ To analyse the concept of speculation and services of depositories in stock market,
- ☐ To realize the trading and settlement pattern of commodity market.

Course outcome

- ☐ Students are able to write the meaning ,classification, differentiation of Stock and commodity.
- ☐ Students are capable to analyse the objectives and functions of SEBI, BSE ,and NSE Centres.
- ☐ They also able to write about speculation and its types .
- ☐ Students are capable to organize ,analyse the different market concepts and differentiations.
- ☐ They understand the settlement pattern of Indian Commodity trading pattern.

CORPORATE REPORTING PRACTICES

Total hrs-60

SEM-IV

COURSE OBJECTIVE

- ☐ To study about a set of high quality, understandable, enforceable and globally financial reporting standards based upon clearly articulated principles.
- ☐ To Study about the procedures for accounting for assets and liabilities
- ☐ To Make student know of financial statement is which information about the financial position, financial performance, cash flows and to assess the past and current position of an entity.
- ☐ To study about the profitability and growth prospects and to assess the operational efficiency of the firm.
- ☐ To study how to eliminate the differences in reporting standards and to produce a level
- ☐ To learn about international capital markets and to make a common platform for better understanding of accounting internationally.

Course outcome:

- ☐ Students are able to understand the international financial reporting standards.
- ☐ They are able to understand the various accounting treatment for different assets and liabilities.
- ☐ Able to prepare the income statement and know the income and expenses of the organization.
- ☐ Able to prepare the financial statement of the entity and can analyse the financial position of the organization
- ☐ They can prepare different groups of accounts to manage the resources for multiple users and to simplify administration.
- ☐ They have knowledge about international capital markets

STRATEGIC COST MANAGEMENT-II

Total hrs-60

SEM-IV

Course OBJECTIVE:

The Objective of this subject is to expose the students to the various strategic issues such as strategic planning, implementation and evaluation etc. and preparation of project reports.

- To understand need and process of strategic management which helps in decision making.
- Develop effective strategies and analyse the impact of external environment and internal environment in the organization..
- To make students Implement and evaluate a strategic plan.
- To expose students to the various issues such as strategic planning, implementation and evaluation etc and preparation of project reports.
- To familiarize the students about the strategy evaluation and control
- To expose the students to prepare strategic reports.

Course outcome

- Students have understood the need and process of strategic management
- Student have understood the concept of environment and it its impact.
- To make them prepare a strategic plan.
- Students have understood about strategy evaluation and control.
- To make students understand about key result area

GOODS AND SERVICE TAX

Total hrs-60

SEM-IV

COURSE OBJECTIVE

- ☐ To make the students a Recent Reforms took in Indirect Taxation which is been replaced By GST.
- ☐ For better understanding of GST ,Comparing Previous with current Taxation System (GST)
- ☐ For better understanding the concept of GST in broad way in theoretical aspects with related examples.
- ☐ For making students to understand the different models of GST i.e CGST,SGST,IGST and UTGST.
- ☐ For better understanding of GST and its importance compared to previous indirect taxation by Central and State Govt.
- ☐ For better understanding the GST how it is levied and how it Is assessed under GST Act.
- ☐ To make them understand how GST is having importance for the country in and study in detail about GSTN Portal.

Course Outcomes

- ☐ Students to understand the Concept of GST from Basic to Advance.
- ☐ Students are aware of GST rates and different Slab rates of GST with examples.
- ☐ Have knowledge how GST is levied on goods and services.
- ☐ Knowing how GST was implemented in India and its background.
- ☐ To identify GST problems in assessing and levying of taxes on goods and services wit
- ☐ To make students to have a detail study and capable and solve recent indirect taxation reforms.

PROJECT

TOTAL MARKS-200

Course Objectives:

1. Increase, develop and apply computer knowledge.
2. Gain project major skills.
3. Develop skill at conveying activities and achievements.
4. Work with others and on one's own to purpose a goal.
5. Decide and agree with peers that what work moves all towards a goal.
6. Sustain diverse acts with partners to complete a group projects.

Course Outcomes:

1. To know students individual measurements of activity and accomplishment.
2. Learned to use of computer tools, visual aids, careful choice of titles and outlines, effort put into documents.
3. Learn to communicate with others.
4. Student can grow professionally by doing the course.
5. Learned the project ideas and knowledge comes from preparation.
6. Gain confidence at having conceptualized, design and implemented a working project with their team.
